BILL PAY TERMS AND CONDITIONS

5.1. Restrictions and Limitations

5.1.1. The payee of any payment from your Payment Account ordered through Bill Pay (i) must be located in the United States, and (ii) cannot be a party that we regard as ineligible for payment through Online Bill Payment.

5.1.2. No payment from your Payment Account can be ordered through Bill Pay in an amount greater than the limit established for Bill Pay, which is currently \$99,999.99 per payment.

5.1.3. The maximum P2P transfer per payment and per Business Day is \$2,500.00.

5.1.4. For a series of recurring payments from your Payment Account to be ordered through Bill Pay, the payments must be (i) equal in amount, (ii) payable to the same payee and (iii) payable at regular intervals (e.g. weekly, monthly, etc.).

5.2. Payment Processing

5.2.1. Non-recurring (Single) Payments

All non-recurring payments will be processed on the Business Day that you designate as the payment date in Bill Pay provided the payment order is submitted to the Bill Pay Processor prior to 3:00 p.m. Eastern Standard Time.

All non-recurring payments submitted at 3:00 p.m. Eastern Standard Time or later on a Business Day will be processed on the next Business Day. If you designate a non-Business Day as your payment date, the payment will be processed on the first Business Day before the designated payment date.

5.2.2. Recurring Payments

After the first recurring payment is processed in Bill Pay as noted above, subsequent payments are automatically rescheduled by the Bill Pay system. Based upon your selected frequency settings for the payment, a payment date is calculated for the next occurrence of the payment. If the calculated payment date is a non-Business Day, the payment date for the new occurrence of the payment is adjusted to the first Business Day before the calculated payment date, unless you select otherwise.

Note: If your frequency settings for the recurring payment specify the 29th, 30th, or 31st as a particular day of the month for the payment date and that day does not exist in the month of the calculated payment date, then the last calendar day of that month is used as the calculated payment date.

BILL PAY TERMS AND CONDITIONS

The Bill Pay system also calculates an “estimated arrival date” of your payment. This is only an estimate, so please allow ample time for your payments to reach the payees. You will be responsible for giving any order to us to make a payment from your Payment Account through Bill Pay in sufficient time for the order to be processed and the payment to be sent so that it is received by the payee of the payment by the date it is to become due without taking into account any grace period provided by the payee, and you will be responsible for all consequences of your not doing so (for example, any finance or late charge resulting from the payment being made late).

If the payment is to be made by an electronic transfer of funds to the payee, up to three (3) of our Business Days after the Business Day on which we receive the order will be necessary to allow for processing of the order so that the payment is received by the payee on the anticipated date. If the payment is to be made by the preparation and sending to the payee of a check, up to seven (7) of our Business Days after the Business Day on which we receive the order will be necessary to allow for the order so that the payment is received by the payee by the anticipated date.

5.3. Funds Availability

5.3.1. Electronic Payments

Funds must be available in your Payment Account on the payment date by 3:00 p.m. Eastern Standard Time in order for your payment to be processed and funds withdrawn from your Payment Account. If the funds in your Payment Account are not available on the payment date by 3:00 p.m. Eastern Standard Time, the Bill Pay system will attempt to process the payment the next Business Day by 3:00 p.m. Eastern Standard Time, and every Business Day thereafter up to a total of four (4) Business Days after the payment date. If the funds are still not available, the payment will be cancelled and no funds will be withdrawn from your Payment Account.

5.3.2. Check Payments

For payments made by check, funds are not withdrawn from your Payment Account until the check is presented to Republic Bank for payment against your Payment Account. When the check is presented to Republic Bank for payment against your Payment Account, there must be sufficient available funds in your Payment Account in order for the check to be paid. If there are not sufficient available funds in your Payment Account at the time the check is presented to Republic Bank for payment, Republic Bank can either pay the check or return the check unpaid to the payee, and in either case may charge your Payment Account a returned/paid item fee in accordance with your Account Documentation.

Please refer to the Account Documentation for additional information regarding funds availability.
